

Where Families Grow Together
September 1, 2024 through August 31, 2025

In order to keep pace with the **rising cost of maintaining a high-quality program and keeping our excellent staff** from moving on to other schools or professions, we have given T.E.A.C.H. Scholarships to many of our teachers to raise their Registry level with the state. This additional training and their longevity here at the center warranted them to receive a substantial raise to keep them in this field of work. We have determined that the following rates will enable us to continue our program without lessening our services to you and your child. Please note that we have built in a flexibility to meet the varying needs of our clientele. These rates will remain in effect through summer 2025.
